ABOUT SCIINOV

Sciinov identify and bridge the gap in knowledge sharing by creating and implementing new scientific and technology specific platform, forums, and products to discuss bottle-neck issues and recent advances which need to be addressed and updated.

Sciinov serves the global information community in the development and distribution of high quality, scholarly conferences. Our conferences are powered with knowledge, experience and amazing people, and have managed to become one of the leading B2B event organizers. Our informative conferences are led by editor's association and advisory board which include academicians, researchers, industry leaders, emerging fast-growth companies, innovative technology creators, and members of the investment community.

We publish and promulgate the innovative research findings with an ethical and stringent review process to make a step-change in fields of science and technology. Sciinov is committed to work together and create a network which delivers the scientific solutions and contributes the best services to the scientific community.
